The above is a special inducement to get your order in early, and is additional to the 50 free bulbs and new bulbs given with each order.

WESTMORELAND GARDENS GLADIOLUS

50 Bulbs Free With Early Orders

On all orders over \$2.00 received before April 15th, we will give 50 bulbs free. They will all be named varieties, labeled, blooming size generally of the kinds you order, although we often put in extras of a few varieties we think you will like.

NEW INTRODUCTIONS FREE

On orders over \$5.00 we will include one medium size bulb of RED CHIEF in addition to the 50 free bulbs.

With orders over \$10.00 a bulb of our own introduction priced at \$5.00 or over, will be sent free.

On orders over \$15.00 you will receive one large bulb of ENCHANTMENT.

With each order over \$20.00 we will give free an assortment of our best introductions, labeled, our selection, to the value of \$10.00. As stated in our price lists for the past two years, you are entitled to the \$10.00 worth of free bulbs if your orders total over \$20.00 for the three years 1934, 1935 and 1936. The total amount of your orders for 1934 and 1935, as shown on our records, is \$. You must increase your amount to \$20.00 this year in order to get the \$10.00 free bulbs. This offer will not continue for another year.

On orders over \$25.00 from this list, received this year, we will give free, one large bulb of DOMINATOR, a wonderful new strong growing variety.

These free bulbs are the cream of our stock, selected from the best of our own originations as listed this year, the object being to get these new bulbs introduced into the gardens of every state.

We do not substitute varieties without your permission, but in order that you receive credit for the full amount of your order, we will, if out of some variety or size ordered, send next size to same value, or extra amounts of others you order. Liberal value given on such change. Please name substitutes if you do not favor the above adjustment. Early orders can generally be filled complete, without any changes or substitutes you may suggest.

Wholesale Prices

We do not give any F. O. B. wholesale prices. Our prices per 100 and 1000 bulbs, Quarts of bulblets, and the

larger amounts of assortments are prepaid wholesale prices, delivered at your door, and guaranteed clean, healthy bulbs. Do not be deceived by cheap F. O. B. prices, where you pay more than you expect for transportation, and probably get poor bulbs.

SHOW YOUR FRIENDS

Westmoreland Glads when they are in bloom and tell them you will have us send them our list of bulbs if they want to get some for next year. For each new customer sending us an order of \$2.00 or over, we will send you free, \$1.00 worth of bulbs. Write names and addresses plainly.

Bulbs of Quality

Our customers say our bulbs are the finest, cleanest and best blooming bulbs they ever had. All our bulbs and bulblets have been fumigated and are free from thrip. If you are troubled with thrip, use ROTOTOX, or formula contained in our planting instructions sent with each order, and you will get rid of them.

LARGE bulbs are 1¼ in. and up to 3 in. diameter, and are generally considered best for exhibition purposes, producing the best flowers on the longest spikes.

MEDIUM size bulbs, ¾ in. to 1¼ in., give a very satisfactory spike, with florets usually as large as from larger bulbs.

SMALL bulbs, over ¼ in. to ¾ in., are planted for increase rather than blooms, but if planted early, most varieties will bloom.

Three or more bulbs sold at the dozen rate; 25 at the 100 rate; 250 at the 1000 rate. Bulblets per 100 at 1/6 of the 1000 price. Pints or half-pints at the quart rate.

All Prices given in this List are Prepaid Prices.

Clean, Healthy Bulbs. Satisfaction Guaranteed. No Thrip. Order Early.

BULBS AT LESS THAN 1/10 PRICE OF LARGE BULBS

These are the smallest size (No. 7 bulbs), 1/4 in. and under. Plant about two inches deep. They start growing as soon as planted, and will produce a 100% crop of larger bulbs than from bulblets, which sometimes require a month or more to sprout, and which produce an average of only 30% to 70%.

You will get some blooms from these small bulbs, but spikes will be short. Plant early as possible.
